THE FOUNDER'S STORY

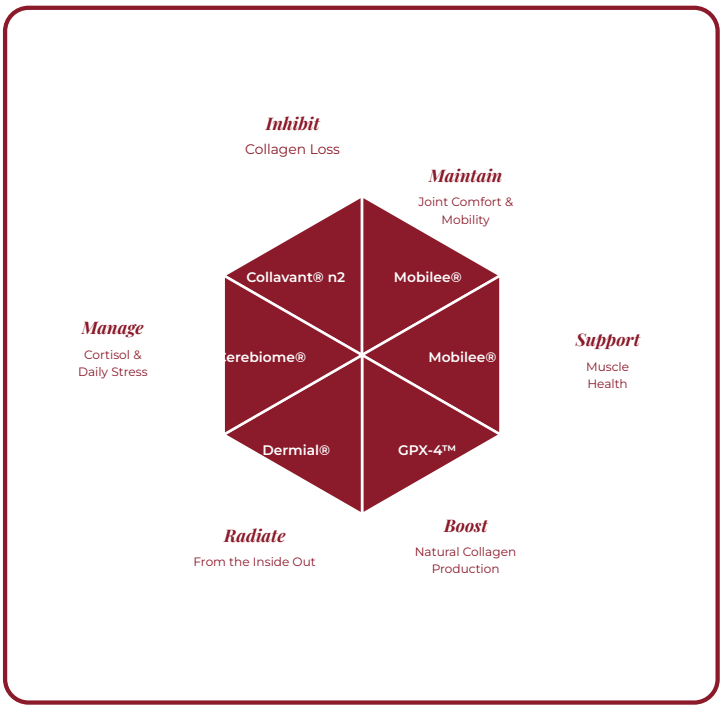
Built by Someone Who Knows the Difference.

The owner, David Chung, isn't just a supplement guy. He's a beauty manufacturer. He's created some of Sephora's best-selling products. He manufactures for some of the biggest beauty brands in the world. He owns facilities in Korea and New Jersey.

WHAT IT DOES

One Stick. *Everything*

You Need.



Most collagen supplements only support joint and skin health, but our advanced, proprietary technology blend delivers 6 dimensions of total-body benefits.

INHIBIT COLLAGEN LOSS

Collavant® n2 works through the gut-immune connection to slow the breakdown of collagen promoting joint lubrication, mobility and comfort while also supporting quicker recovery. It also helps slow cartilage degradation. Cartilage is the cushioning that helps maintain the structural environment necessary for healthy joints and bones, including overall bone health.

→ ***Collavant® n2 was shown to provide a 44%***

reduction in joint discomfort.

MAINTAIN JOINT COMFORT AND MOBILITY

Mobilee® Hyaluronic Acid Matrix clinically shown to lower Prostaglandin E2, a compound linked to joint discomfort, helping support joint comfort and overall joint function.

→ ***Mobilee® was shown to boost hyaluronic acid more than 200x compared to the baseline.***

SUPPORT MUSCLE HEALTH

Mobilee® boosts the body's natural production of hyaluronic acid to support muscle strength and flexibility, while also increasing muscle cell proliferation.

→ ***Mobilee® was shown to improve muscle strength by 17% and improve muscle function by 23%.***

BOOST NATURAL COLLAGEN PRODUCTION

GPX-4™ is a collagen tripeptide that boosts natural collagen production and helps improve skin elasticity, firmness, and barrier function.

→ ***GPX-4™ was shown to improve crows feet wrinkles by 937%, improve dermal density by 266% and improve dermal thickness by 548%.***

RADIATE FROM THE INSIDE OUT

Dermial® hydrates the skin from within while

helping reduce wrinkles and dryness for smoother, more radiant looking skin.

→ ***Dermial® was shown to reduce wrinkles, increase skin hydration by 13%, and improve skin glow and brightness by 33%. Plus, Bioactive Collagen Peptides shown to support visibly thicker, fuller hair + strong nails.***

→ ***71% felt their nails were growing faster and longer.***

MANAGE CORTISOL & DAILY STRESS

Cerebiome® is a clinically studied probiotic that supports the gut-brain axis to promote balanced mood, help maintain healthy cortisol levels, and support mental wellbeing.

→ ***Cerebiome® was shown to reduce feelings of everyday stress by 44%.***

The Ingredient Nobody Else Has *GPX-4* ™ — *Straight from Seoul*

The ingredient nobody else has. Developed in Korea. Clinically studied at one of Korea's top medical universities. Used in medical dermatology clinics. Exclusive to this formula in the US market. This isn't inspired by Korean skin science — ***it is Korean skin science.***

39% increase in skin hydration

25% increase in skin elasticity

results of only 8 weeks in clinic trials

WHY THIS IS DIFFERENT

Not Just More Collagen. Better Collagen.

01

Exclusive Korean ingredient. GPX-4™ is a collagen tripeptide — not a peptide. It absorbs directly into the bloodstream. No conversion step. No waiting room. And nobody else in the US market has access to it.

02

Powder, not liquid. Liquid collagen is mostly water. You're paying premium price to refrigerate water. This mixes fresh, travels anywhere, no refrigeration needed.

03

Registered, trademarked ingredients. Every ingredient has a name, a patent, and a clinical study. Not "collagen blend" — actual science with receipts.

04

Multiple supplements in one stick. Collagen. Joint support. Hyaluronic acid. Psychobiotic. B12. Your supplement shelf just got a lot simpler.

05

Tastes like berry juice. No chalky protein drink. No pinching your nose. You'll actually want to take it every single day.
